Spin Rewriter has greatly increased my productivity. After some years of using another Content Spinner I can say Spin Rewriter 4.0 is undeniably the very best content spinner offered out there today. Aaron's "Spin Rewriter 4.0" the ONLY spinner on the market to produce readable spun material with the click of a button. The ONLY spinner I make use of and highly recommend. Spin Rewriter has been indispensable in my marketing efforts. The generated content will pass the Copyscape check and never be detected as duplicate content. His software application is wonderful and extremely professional, but equally as importantly he cares for his consumers as well as provides tons of added value.

I have been extremely happy since purchasing Spin Rewriter a couple of years ago. It has been such a great help to me and I found it much more user friendly than an opposition product I was using at the time which was hailed as the best spinner available. Spin Rewriter just gets better with each upgrade without seeming to increase the amount of learning to cope with it. I can't quite work out how that is possible but that is the way it seems to me! The SR team are constantly updating the software so any major improvements just seem to fit into the programme seamlessly. All I can say is "Don't {procrastinate with|dawdle with|waste time with|postpone}your decision. This will be your best buying decision all year"!

I love EVERYTHING!!!! Spin Rewriter is extremely easy to use, and the quality is the best available on the market... PERIOD!!! Even if you are new to marketing, you know that content is a major cornerstone. We use to spend thousands of dollars having content developed. Using Spin Rewriter has cut our costs by 90%. The best part is we did not have to sacrifice quality in order to increase production.

Spin Rewriter was one of the first marketing tools I ever bought - it's the only marketing tool that I've stuck with over the past year and a half. Aside from competition & link analysis tools (MOZ, Majestic, Ahrefs & SEMrush) its the only product you really NEED to get yourself started. I use it weekly and would highly recommend it!

It has helped me to get high quality content fast without having to outsource the spins. I used to spend hundreds a month just on getting article spins for all my client sites and SEO campaigns. It's very effective on getting amazing spun variations of highly relevant and high quality content quickly. You can also go back and use them again in the future since it archives them. I love that. In this day and age, it is by far the one of the hardest tasks to do online always coming up with fresh content for Google to devour. Of course it's not just about fresh content, but it is certainly a big factor. Thanks Aaron and the team...:)

Spin Rewriter just keeps getting better. A lot of spinners churn out crappy unreadable rubbish which takes ages to sort out, but Spin Rewriter has a quality variable you can select dependant on the purpose you want the article for. “

Spin Rewriter completely changed my mind about article spinning software. I've tried nearly every one that's come on the market (seriously) and wound up just rewriting articles myself since each product basically made me do that anyway. So when I tried Spin Rewriter, I was a little hesitant as I'm used to every product always having a huge hype with tons of testimonials from people I've never heard of. With SR 4, my mind was completely changed, and I was amazed at how easy the software was to use, but also it really focused on proper spelling and language. With many articles you see online, it's obvious it's spun as it reads like something automated and off the rails wrote it. With Spin Rewriter, it truly is able to sound real with quality writing. You have to put a little effort into it for the best results, of course, but unlike all the others it's worth that little bit of effort. I can't wait to see what changes are made for 5.0!

The difference between now and then is: Before I would post 2-3 times a month to my blog as it takes a long time to make an article unique. I have around 10 sites now which my 70 year old mother is helping me with, until they are established. Why I am running a day business she helps me by using Spin Rewriter to do my articles for SEO and for my sites. I am very please and impressed with Spin Rewriter, for a 70 year old lady to be able to use with out calling me every hour to ask how do to something is a testament to how easy SR is. My mother is happy just having something constructive she can you use without the downtime for the learning process. She is always complaining that IM is just to hard for older people to learn. I've jumped on board soon after you've released the tool -- I didn't get it right away because I thought there was too much hype about it and I honestly figured it was another one of those "guru deals"..but after the hype just wouldn't die down, I took the plunge and truth be told I couldn't be happier. Thanks so much for offering such an awesome tool.

I love the ease of use, the integration with the softwares that I use and the one click rewriting! I do proof it out, but the time saved is enormous. Putting together content for backlinks is tedious at best and downright difficult at worst. Using spin rewriter lets me be sure I can put a VA on the job, give the material a quick proofing and have content for all my blogs.

I was using The Best Spinner when an internet marketer friend told me about the Spin Rewriter. I was new to online marketing and had a hard time understanding how spinning worked so I hated spinning articles but I had to do it. When I started using the spin rewriter, that is the end of using other spinners. It is so easy to use and the language is most readable that sometimes I forgot it was spun. It has different levels of spinning from conservative to higher risks so I can choose how much spun syntax I want to apply. Then Aaron offered a lifetime upgrade so it was a no brainer for me to get it. I have been using it for the past 3 years and have no reason to look elsewhere for a spinner.

I find Spin Rewriter so easy to use. I wouldn't change it for any other article spinner anywhere. The people who take care of this software are totally awesome. It is not a sell it and forget it program. They take care of it all the time and improve it with free updates. I started out with the original Spin Rewriter and after the years they are coming out with a new version 5.0, and the best part about it, I don't have to purchase the new version. I get the upgrade because I am an existing user. How cool is that.

Simply put, Spin ReWriter is the best content spinner available in the market, and with the lifetime contract it shows how much you care about the quality of your product and your care for your customers. Spin Rewriter is, without a doubt, one of the most useful tools I've purchased since I started my business. Admittedly, I'm a control freak when it comes to my articles so I manually insert words

or phrases where appropriate. I can't get over how easy it is to make these edits. The ability to remove original text and use only the synonyms selected is genius. When I spin the articles, there are no surprises...I know exactly what I'm getting! I couldn't be happier. Thanks!

I picked up a monthly subscription to SpinRewriter last night since I didn't want to commit to an entire year. While the video was impressive, I wanted to see for myself what it could actually do.

I grabbed a random PLR article that I had on my hard drive and threw it into SpinRewriter just to see what it would do with it. I didn't do anything fancy at all. I simply let SpinRewriter automatically spin the article with no input whatsoever from me.

My reaction? WOW! I must say that I've been a user of the supposed »best spinner« since it was first released and it used to be the best spinner but not any more! SpinRewriter beats the heck out of it. In fact, I liked it so much that I went ahead and signed up for the one year subscription. This thing rocks!!

It's nice of you to educate your customer which is not followed by most of the so called Gurus who are nothing but big Scamsters.

I have been into IM for last 3 to 4 years and must have come across only handful of people who are Genuine and look after there Customers and as of now YOU also happen to be in that list of handful and hopefully you will continue to be like this when its out of the trial Period.

By the way I used your Spinner last night and did spin some 3-4 Articles and the outcome was pretty good and was quite easy to use. In fact I had followed the same steps which you just explained in this mail of yours and that is the reason my content turned out about 90% original.
